Scottsdale Recovery Center Becomes an In-Network Provider with Blue Cross Blue Shield

*New partnership allows cost-effective access to high
quality addiction recovery treatment*

(Scottsdale, AZ) Scottsdale Recovery Center (SRC), one of the leading addiction recovery centers in the state, is proud to announce the addition of an in-network health insurance provider. The facility is now in contract with [Blue Cross Blue Shield](#), allowing patients to make use of their private insurance and receive top-of-the-line treatment at a more affordable cost.

Blue Cross Blue Shield is one of the most utilized healthcare providers in the nation, covering over 106 million Americans throughout the country. For Scottsdale Recovery Center, a partnership with Blue Cross Blue Shield is highly valued, as it works to provide patients with cost effective solutions for high-end recovery treatment. This backs SRC's belief that your financial situation should never be the reason you don't, or can't, get the help you need. The hope in being in-network is that more people will seek treatment. The more people seeking treatment, the more people getting sober.

"We're excited and honored to be an in-network provider with Blue Cross Blue Shield for a couple of reasons," says Chris Cohn, owner and founder of Scottsdale Recovery Center. "One is the decreased financial burden on these folks who desperately need help getting high quality treatment looking to utilize their private insurance. Now we can get them in our facilities with less out of pocket costs versus being an out of network provider. Secondly, we hope to help

SCOTTSDALE RECOVERY CENTER

more people find their way into recovery and sobriety, and not have the financial deterrent as an obstacle to entrance. It's a win-win for everyone!"

A win-win indeed: **patients may now may utilize their Blue Cross Blue Shield HMO or PPO plans for SRC'S [Partial Hospitalization Program \(PHP\)](#), [Intensive Outpatient Program \(IOP\)](#) and [Outpatient Programs](#).** Recovery centers face several challenges in building and solidifying relationships with insurance companies, as many are disreputable and designed solely for profit. But Scottsdale Recovery Center has proved its devotion and credibility in many ways, setting the standard for what it means to be a true resource in the rehabilitation industry. They have earned the Joint Commission's [Gold Seal of Approval](#) for Behavioral Health Care Accreditation as well as verification from LegitScript, recognizing SRC as a safely and legally operated facility.

The mission at Scottsdale Recovery Center is simple: to rebuild hope and recreate lives through an attentive, passionate, and comprehensive approach to addiction recovery. With this partnership, you too may be able to more easily achieve the sobriety you deserve. Follow Scottsdale Recovery Center on [Facebook](#) and [Instagram](#), and [visit their website](#) to stay up-to-date on the latest in addiction, treatment, and recovery success.
